Che Guevara and the Imperialist Reality

BY MARY-ALICE WATERS

Ernesto Che Guevara was among the most outstanding leaders to emerge from the millions of men and women who have made the socialist revolution in Cuba, changing the history of our epoch. These pages highlight the internationalist perspective that Guevara, as part of the Cuban leadership, acted on — from Vietnam to Cuba, from Africa to Latin America and the United States. Waters explains how Che's course strengthened the working class and its allies within the center of world capitalism itself while improving the odds in the worldwide struggle against the imperialist reality. $3.50

FROM PATHFINDER

Puerto Rico: Independence Is a Necessity

Rafael Cancel Miranda on the Fight against U.S. Colonial Rule

In two interviews, a leader of Puerto Rico's independence struggle speaks on the brutal reality of U.S. colonial domination, the resurgence of the independence movement, the campaign to free 15 Puerto Rican political prisoners, and the example of Cuba's socialist revolution for all those fighting for freedom. He addresses, above all, the new generation joining this struggle. In English and Spanish.

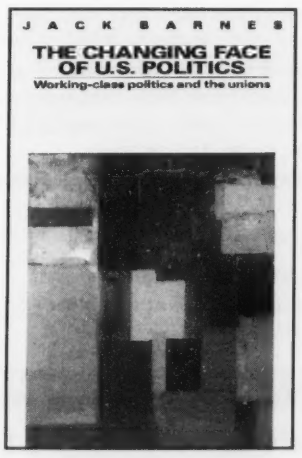
The Changing Face of U.S. Politics

Working-Class Politics and the Trade Unions

JACK BARNES

A handbook for workers coming into the factories, mines, and mills, as they react to the uncertain life, turmoil, and brutality of capitalism in the closing years of the twentieth century. It shows how millions of workers, as political resistance grows, will revolutionize themselves, their unions, and all of society. **$19.95** Also available in Spanish and French.



Imperialism's March toward Fascism and War

JACK BARNES

"There will be new Hitlers, new Mussolinis. That is inevitable. What is not inevitable is that they will triumph. The working-class vanguard will organize our class to fight back against the devastating toll we are made to pay for the capitalist crisis. The future of humanity will be decided in the contest between these contending class forces." Jack Barnes, "Imperialism's March toward Fascism and War." In *New International* no. 10. **$14.00**

The Transitional Program for Socialist Revolution

LEON TROTSKY

This program for socialist revolution remains an irreplaceable component of a fighting guide for communist workers today. **$20.95**

Capitalism's World Disorder: Working-Class Politics at the Millennium

Jack Barnes

The social devastation, financial panics, political turmoil, police brutality, and military assaults accelerating all around us are not chaos. They are the inevitable product of lawful and understandable forces unleashed by capitalism. But the future capitalism has in store for us is not inevitable. It can be changed by the timely solidarity, courageous action, and united struggle of workers and farmers conscious of their power to transform the world. This book has been written to bring closer that future. $23.95

Episodes of the Cuban Revolutionary War, 1956–58

Ernesto Che Guevara

Ernesto Che Guevara, Argentine by birth, became a central leader of the Cuban revolution and one of the outstanding communists of the 20th century. This book is his firsthand account of the military campaigns and political events that culminated in the January 1959 popular insurrection that overthrew the U.S.-backed dictatorship in Cuba. With clarity and humor, Guevara describes his own political education. He explains how the struggle transformed the men and women of the Rebel Army and July 26 Movement led by Fidel Castro. And how these combatants forged a political leadership capable of guiding millions of workers and peasants to open the socialist revolution in the Americas. $23.95

In Defense of Socialism

Four speeches on the 30th anniversary of the Cuban revolution

Fidel Castro

Economic and social progress is possible without the dog-eat-dog competition of capitalism, Castro argues, and socialism remains the only way forward for humanity. Also discusses Cuba's role in the struggle against the apartheid regime in southern Africa. $13.95

To Speak the Truth

Why Washington's 'Cold War' against Cuba Doesn't End

Fidel Castro and Che Guevara

In historic speeches before the United Nations and UN bodies, Guevara and Castro address the workers of the world, explaining why the U.S. government so hates the example set by the socialist revolution in Cuba and why Washington's effort to destroy it will fail. $16.95
